Title of the Practice: Preparation and distribution of hand sanitizer for the poor and tribal peoples during COVID-19 pandemic

Objectives of the Practice:

To provide safe and effective hand sanitizer to the financially weak, below poverty and tribal peoples in order to circumvent the threat of COVID-19 pandemic. Faculty from the department of chemistry develop their own methodology for the preparation of cost effective and safer isopropyl alcohol-based hand sanitizer. The project undertaken is in line with mission of the institute, and following are the objectives: To explore science from lab to society, to set benchmarks in front of the students in order to uplift their morals.

The context:

Developing an efficient and highly practical protocol for the preparation of hand sanitizer in the laboratory with the help of available chemicals in the lab has been a challenge. In spite of COVID restrictions faculty from the Department of Chemistry has made hand sanitizers for the peoples to make sure the peoples stay safe and restrict the expansion of COVID-19. Faculty associated with NSS helps in the distribution of these sanitizers and make sure the sanitizers are in the needy and deserving hands.

The Practice:

In Indian education system it is to be said that the best education is the education which helps poors and give equal opportunity to all. In the present times the newly formed ministry of Skill Development and Entrepreneurship under Government of India is a welcome step in this regard. Education should prove not only a means for personal enrichment but also to be a platform for reducing social divide and uplifting everyone. Our institute has been taking consistent efforts in this regard. The institute is committed towards the healthy growth and sustainable development of the society. Through academics though the institute enhances technical skills, the institute has undertaken several initiatives to inculcate values among students. However, the pandemic provides an opportunity to the enthusiastic minds of the institute to help the society and try to support the peoples under the pandemic circumstances. The institute has successfully distributed the laboratory made hand sanitizer to the peoples with the help of NSS team of the institute by following the COVID-19 restrictions.

Evidence of Success:

Overall, Efforts taken by the institute to provide sanitizer in the crucial times of the pandemic

has turned out to be fruitful as our faculties from the department of chemistry and NSS has a pain-stacking efforts and successfully administered the preparation and the distribution of the hand sanitizer. The activity undertaken by the institute sets a milestone in front of the disciples of the institute, through which they can set their goals with constant harmony with the society.

Problems Encountered and Resources required

Under the pandemic restrictions it is difficult to be their in the laboratory. However, the institute take necessary initiative to allow the faculty of chemistry department to perform the manufacture of the hand sanitizer in the lab.

During manufacturing the staff overcomes the scarcity of the clove oil by extracting clove oil from clove buds in our own laboratory. Moreover, after manufacturing (the hand sanitizer was packed in 10ml bottles and ready for distribution) the distribution is the challenge that time our NSS team with the help of local police distributed the sanitizer very effectively.

Preparation of Sanitizer

In a 500ml round bottom flask, 50g of clove buds were taken. To this 250ml ethanol was added and refluxed for two hours. It was then filtered and diluted with water to 1000ml. To this solution, 100 ml 5 % solution of Alum was added. Thereafter, the resulting solution or sanitizer was packed in one liter bottle for distribution.

Best Practice – 2021 - 2022

Title of the Practice: Reading Club Activity for faculty

Objectives of the Practice:

The objective of this activity is to promote reading culture at the institute.

Central Library has started the Reading Club Activity to enhance the reading habits of the faculty as well as students. The benefits of reading Creates reading accountability, Helps you engage deeper with the book, Encourages critical thinking, keeps your brain sharp, Gives new perspectives, Can improve writing skills.

The Practice:

The groups of faculty members are formed in each department for reading and knowledge sharing discussions. The faculty groups are formed voluntarily. The ideal group size recommended is of 4 faculty members. One of group members acts as a coordinator. The coordinator makes sure that all members are actively reading and participating in the group. Reading Club activities are conducted in all departments and HOD coordinates the activities. HOD plays a role of facilitation and promotes the faculty members in the department and ensure that all faculty members participate in the activity.

Evidence of Success:

The 13 groups were formed across all the departments in 2021-22. Total 52 number of faculty members across the institute participated and 53 number of books were read by them. Each department conducted a presentation on the book review at the end of the semester. The final report was submitted to the Central Library.

Problems encountered, and Resources required:

Due to extra workload faculty members find it difficult to find time for such additional reading. Some of the faculty members are interested in technical literature reading only. The resources required are good collection of motivational books or biographies and availability of reading rooms and seminar halls for having discussions and presentations.

मार्च 2020 मध्ये देशातच नव्हे तर जगभर कोरोना सारखी महामारी पसरली. कधी नव्हे असे जैविक शंकेत समाजासमोर उभे राहिले. सारे जगच थांबले. मानवी प्रगतीचे चाक पहिल्यांदाच स्थिरावले. सर्व क्षेत्रातील गती आणि प्रगती थांबली. माणूस एका विशिष्ट भयाने भयग्रस्त झाला. एकमेकांविषयी अश्वरक्षितता वाढली. जनसंपर्क थांबला. शैक्षणिक संस्था, ग्रंथालये बंद झालीत, वर्तमानपत्रे थांबलीत अशा वेळी कोरोनासारख्या भयावह मानसिकतेतून बाहेर पडण्यासाठी पुस्तकासारखे मनाला संजीवणी देणारे एकमेव महत्वाचे साधन म्हणून पाहता आले. कारण कुरमणूकीस्य सर्व साधने बंद झाली होती. सर्व चॅनेलसवर मानवी मन अस्वस्थ होईल अशाच कोशेगाच्या बातम्या दाखविल्या जात होत्या. या सर्वांपासून अलिप्त राहून आनंदी व सुखी जगण्यासाठी पुस्तक एक पर्याय होता.

"A Good book of my library"

• 9

"Ikigai" is a book based on Japanese philosophy that aims to find one's purpose in life. The book is written by Hector Garcia & Francesc Miralles. It is about the Japanese secret to a long & happy life.

• 10

The book begins by exploring the meaning of Ikigai, tracing its origins to the island of Okinawa, which has one of the highest life expectancies in the world. The author explains that ikigai is not just about finding what you love, but also what you are good at, what the world needs, and what you can be paid for.

• 11

Further the book provides practical advice on how to find your ikigai. This includes exercises & examples to help readers identify their values, strengths & passions. The author also emphasizes the importance of finding balance in terms of work & personal relationships.

• 12

The book is well written & engaging with plenty of anecdotes & real life examples to illustrate the concepts. The authors have done their research & provide a thorough exploration of the concept, including insights from experts in various fields.

One potential criticism of the book is that it can feel a bit simplistic at times

Overall, "Ikigai" is a thought provoking read that encourages readers to reflect on their own lives & values. While it may not have all the answers, it provides a useful framework for thinking about what truly matters in life.

10 'शिक्षण हे वाघिणीचे दुध आहे, ते जो पिईल तो गूर -
 11 गूरल्याशिवाय राहणार नाही' असे म्हणून डॉ. बाबासाहेब आंबेडकर
 12 यांनी शिक्षणाचे महत्व आघोषित केलेले आहे. सध्यापरिस्थितीत
 1 प्राथमिक व माध्यमिक शिक्षण जरी समाजातील सर्व घटकांसाठी
 2 समान संधी उपलब्ध करून देत नाही. आजच्या प्रस्थापित शिक्षण
 3 व्यवस्थेतील उणिवांच्या उदापोह प्रा. शरद बावीस्कर हे त्यांच्या
 4 भूरा या आत्मकथनानुन शिक्षण व्यवस्थेचे वाघाडे
 5 काढतांना दिसून येतात. ऑगस्ट 2029 मध्ये
 6 स्वातंत्र्याच्या अमृत महोत्सवात परीक्षण करत असतानाही ग्रामीण
 7 भागातील शिक्षण व्यवस्था आजही मरगळलेल्या अवस्थेत दिसून येते.
 8 प्रा. बावीस्कर यांना अत्यंत सुमार दक्षिणा उपलब्ध झालेल्या
 9 शिक्षण व्यवस्थेतून आपले प्राथमिक शिक्षण पूर्ण करावे लागते. लेखक
 10 सध्याच्या प्राथमिक शिक्षण व्यवस्थेतील उणिवांच्या उदापोह त्यांच्या
 11 आत्मकथनानुन करतांना दिसून येतात. मुळातच सगळ्यांना समान
 12 शिक्षणाच्या संधी उपलब्ध नाहीत असे लेखक निर्दिशनास साधून
 13 देतात. एकूणच पूर्ण शिक्षण प्रणालीत अनेक दोष असल्याचे त्यांचे
 14 मत आहे.

7 शिक्षण घेण्याची प्रक्रीया जरी व्यक्तीनिष्ठ असली तरी
 8 वस्तुनिष्ठ दक्षिणांकरे दुर्लक्ष करून चालत नाही. सध्याच्या ईश्रजी
 9 मध्यमाच्या प्रलोभनास ग्रामीण भागातील पालकही बळी पडत
 10 असल्याने प्राथमिक शिक्षण हे शैल्य रितीने निष्कार्थपर्यंत
 11 पोहचवले जात असल्याची खंन ते व्यक्त करताना. एकूणच
 12 शिक्षणातील असंख्य दोष दाखवत आत्मकथन पूर्णत्वास येते.

संभाजी

विश्वास पाटील यांनी लिहिलेली 'संभाजी'

माकाची कादंबरी वाचली. कादंबरी वाचत असताना

डोक्यासमोर प्रत्यक्ष ते चित्र उभा राहतं. इतक्या

उत्कृष्ट पणे या कादंबरीचे लिखाण केलेले आहे.

प्रत्येक घटनेचे इतके सजीव वर्णन विश्वास

पाटील यांनी या कादंबरीत केलेले आहे.

कादंबरी वाचत असताना आपण प्रत्यक्ष

त्या काळामध्ये जातो व आपल्या अवती-

भवती घटना घडत असल्याची अनुभूती येते.

संभाजी महाराजांची खरी डोक्या या

कादंबरीतून होते.

* बड़े घर का बेटा *

बड़े घर का बेटा होता और,
घर का बड़ा बेटा होता फर्क है।

कभी कीमत की परवाह नहीं,
कोई कीमत देख चीजें खरीदें हैं।

किसी की खातिर की इंतहा नहीं,
कोई हर रोज सपनों को मारे हैं।

किसी के जेब में खजाने सिक्के,
किसी को सौगात मिले छुटने नारे हैं।

कोई अकेला अक्षरी थुंड़ में मस्त रहा,
कोई लगे थुंधली आँख के सहारे हैं।

Putin

Recently, I am familiar to the world's one of the most powerful leaders named as 'Putin'. Putin faced very hard times in his life and joined 'Russian secret services' 'KGB'.

Putin in the initial time very silent and highly disciplined person. His entry in the Russian politics was miraculous but after getting Russian president honour Putin unwavering his different aspect very strict and a patriotic personality.

Putin is the most successful & highly influential president of Russia. In his presidency Russia restores his glamour as world leader.

Discovery of 'Atom'.

About an atom the first philosophical theory

was given by Indian philosopher 'Maharshi

Kanad' and then by 'Democritus'. The first

scientific theory about an atom was put forth

by John Dalton in 1803. Then J.J. Thomson,

Rutherford have explained it in detail.

There were certain limitation to Rutherford's

atomic model which then explained by Heils

Bohr which further corrected by Sommerfeld.

In this way atomic theory started from

classical to quantum model.

Chamaelya develops Chandragupt a slave as a crown prince of India (शत्रुघ्न's शत्रु). The journey of Chandragupt is like a fantasy but his beliefs & hardwork makes it possible.

The most interesting aspect of Chamaelya's life is the habit to deal with hurdles & problems and develop newer ways to tackle them.

Energy Crisis

The important issue of current society

which has to be addressed as early as possible

is Energy Crisis. Energy crisis is a

singularity point where we don't have a

Energy (electrical). If it is not addressed

soon we will be in a situation of energy

crisis. The reason is currently we are producing

electrical energy from Non-renewable (conventional)

energy sources which are depleting at a very fast

rate and the energy need is also increasing

very fast due to modernization of the

society.

The Theory of Everything Sir, Stephen Hawking

Physics in the hands of Stephen Hawking grows beyond human imaginations. For the first time he reveals the secrets of Anti-matter and a time hole.

The theory of everything admits the nature's laws that we called Pauli's exclusion principle and the Hund's rule as a principle of expanding universe.

As a scientist, how the time is subtle and what impact it have is really amazing.

to enhance the efficiency of solar cells

and to make it cost-effective. Currently

multilayer inorganic-organic thin film solar

cell is the hot topic of research.

The Nature of Chemical Bond

Sir, Linus Pauling

The book have a good source of information on chemical bonding. This is the first attempt when a scientist talking about VSEPR and its possible H-bonding sites.

It is amazing to know we have ability to form four + four H-bonding interactions in favorable cases of course. The book is the missing link for students to understand chemical bonding.

Sensors

Sensors is another important field of

Research in material science and lot of

Research is going on in the different

field of sensors like gas sensors, photo-

sensors etc. As we witness advancement

in technology with every coming day

gadgets and other electronic devices are

coming with lot of innovative techniques,

most of them have sensors at base. Cars

sensors are of having great importance in

industries.
